

Song 3 - Frankenspell Superstar - **Run**
Lyrics by Tobin James Mueller Music by Tobin James Mueller

Townspople:

Where's our Good Doctor from the New School of Life?

Gypsies:

Run! Run! Run! Run! Run!
Run from what you've done!

Victor Frankenstein:

Empty eyes, yawning like a grave.
Empty stare, calling to be saved.
What it wants...I cannot bear.
Brought to life: What sort of creature lives in there?
I've breathed the breath of life into a deadly nightmare! Oh! Oh! Run away!

Gypsies:

Now you see what you have done, Victor.
Finish what you have begun, Victor.
There are things you shouldn't shun; and yet you
Run away!

Townspople:

Something on the hill is wrong!
Feel the curse; it's much too strong!
This has gone on too long. We should
Run away!

Victor Frankenstein:

Just go away!

Gypsies and Animals:

Run away! Run away! Run away! Run away!

(Focus shifts from Victor in his study to the Creature and lab animals in the lab.)

Gypsies:

Is he gone?

(Run with us!)
(We will teach you how to run)
(...but not a slave)

It may seem like things are happening
rather quickly,
with you just being born and all,
but if we don't get you out right
now, this may be all you ever see
of what life has to offer...

Hurry, you haven't much time!

(You must run!)

(Like a slave...)
(with us!)

Gypsies:

There is a world out there of open air, adventure ev'rywhere.
There is so much to see, for you to be; there's so much there to share!

Gypsies:

You shouldn't hide.
See what's outside
Something new waits for you.
Time to decide.
Stride out and take us with you
There,
out of this lair
Where there is room to spare.
Time to prepare.
Get up and take us with you.

Animals:

Run, run away!
Run, run away!
Run, run away! Run, run away!
Run, run away!
Take us with you!
Run, run away!
Run, run away!
Run, run away! Run, run away!
Run, run away!
Take us with you!

Gypsies:

If you flee, there's a whole world to see. Peak your curiosity;
That is the key for you to find what's out there.
Learn what's real:
Things you can see and feel, things your senses will reveal...
So much appeal, if you just see what's out there.

Gypsies:

Make your
move, get
out and prove
What you can do;
And you can take us with you
You can
strive to
be alive.
That's how you thrive;
That's why you take us with you,

Animals:

Run, run away!
Run, run away!
Run, run away! Run, run away!
Run, run away!
Take us with you!
Run, run away!
Run, run away!
Run, run away! Run, run away!
Run, run away!
Take us with you!

Gypsies and Animals:

Open out...and leave no doubt.
Time for you to scream and shout,
Bust down the door, burst out and make your entrance.
It's all there...waiting for you to snare,
Waiting there for you to share.
Now is the time, come on and let your brilliance shine.

Gypsies:

Shine. Shine. Shine.
